   @tahesport

Discover, learn, progress skills, and share with friends. Blaze your trail or find your tribe.

Here at TAHE, we dream of endless summers filled with fun and adventures with family and friends, creating memories that last forever. Based in France for forty years, we've been able to make this happen, sharing our passion for watersports by manufacturing a complete range of reliable and long-lasting products to guarantee endless fun.

We are TAHE, and we make #EndlessPlayTime on the water.

ACCESSIBILITY

Our products are designed to deliver the easiest and most affordable way to get on the water and have fun, whether you're a total beginner or more experienced and looking to progress.

A SHARED PASSION

Our passion is a source of happiness and brings positivity to our lives. That's the reason why we invest so much energy to ensure that new and future generations can discover the world of water sports thanks to our One Design classes, O'PEN SKIFF, T293, and TWF 130.

DURABILITY

As a major player in the board and water sports industry, we are fully aware of our responsibility to guarantee that our products will deliver endless fun on the water for all our customers as well as the sustainable future we all hope for. That's why all our products are manufactured to be as long-lasting as possible. All our manufacturing off-cuts are recycled, and more than half of all our products are recyclable at the end of their life.

MADE IN FRANCE

We are proud to be the only major manufacturer of board and water sports equipment operating in Europe. At our production facility in France, we conceive and construct the vast majority of our products. Working together as a team, we use our unique experience and know-how to distribute our products in more than 90 countries.

40 Years of Molding Expertise

Tahe Outdoors France is the proud owner of an industrial tool that is unique in the world, capable of three different manufacturing techniques: thermoforming, thermoforming around a polystyrene core, and blow moulding/blown extrusion.

Tahe Outdoors France is the only manufacturer in the world to have these three manufacturing techniques available on one production site. This enables us to produce six different product types with consistency, quality and faithfulness to the original design, every time. Tahe Outdoors France also makes its own polystyrene and polyethylene slabs at the same site.

Eco Friendly Manufacturing

ACE-TEC, **TOUGH-TEC**, and **SKIN-TEC** products are proudly produced in Vannes (Brittany), France, at the forefront of eco-minded manufacturing.

ACE-TEC and **TOUGH-TEC** utilize thermo-formed skins, watertight EPS cores, and externally molded inserts. Both technologies use low energy consumption, no pollution, and resource conservation. ACE-TEC cut-off waste during production is recycled back into the process. TOUGH-TEC products can be entirely recycled at the end of their life cycle.

SKIN-TEC is a high-density cellular foam fusion formed and molded in France. The foam slabs come out of the mold in a fully-finished shape, generating no waste during production. Durable, lightweight, water-resistant, and 100% recyclable.

ENVIRONMENTALLY FRIENDLY MANUFACTURING

LOW ENERGY CONSUMPTION

- Short production cycle
- Short Infra-red heating cycle
- Low electricity consumption

NO POLLUTION

- Closed circuit cooling of the mold
- No gas emissions
- No solvents

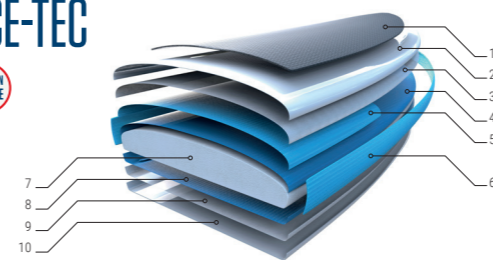

RESSOURCE CONSERVATION

- Rejection rate (less than 2.5/1000)
- Surplus material systematically recycled
- A capacity per mould 5 times greater than standart techniques

RECYCLABLE PART

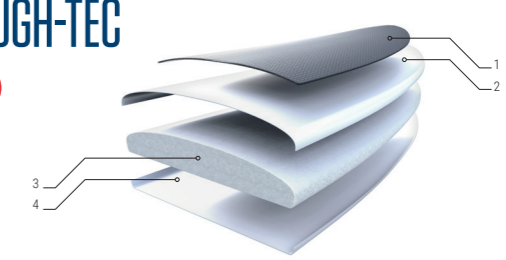

- TOUGH-TEC and SKIN-TEC products can be entirely recycled at the end of their life cycle.

ACE-TEC

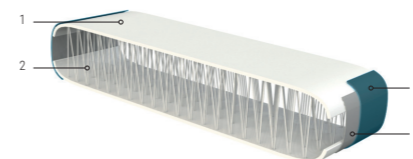

1- Deck Pad. / 2&10- Thermoformed plastic skin (ASA). / 3- 50g/m² Fiberglass wrap. 4&8- 200g/m² Woven Fiberglass. / 5- 200g/m² Woven Fiberglass Reinforcement Patch in standing area. / 6- 200g/m² Woven Fiberglass Rail Reinforcement. 7- Molded, Watertight EPS Foam Core. / 9- 50g/m² Fiberglass wrap.

TOUGH-TEC

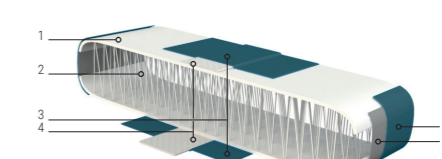

1- Deck pad. 2- Rugged Polyethylene Outer Shell. 3- Molded, Watertight EPS Foam Core. 4- Polyethylene outer shell.

SUP AIR BEACH INFLATABLE SUP

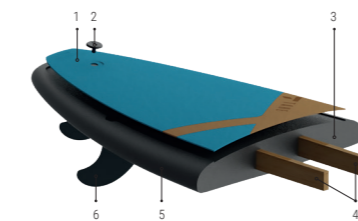

1- Single PVC layer / 2- Nylon Drop-Stitch core 3- Outer PVC layer rail / 4- Inner PVC layer rail

SST BREEZE INFLATABLE SUP (Support Stringer Technology)

Polyethylene anti-UV treated, highly resistant

FULL HP INFLATABLE KAYAKS

1- Side air chambers made of Drop Stitch material. 2- Bottom floor made of Drop Stitch material. 3- Reinforced PVC skin on the hull.

HYBRID INFLATABLE KAYAKS

1- Nylon skin with highly resistant PU coating. 2- PVC bladder. 3- Bottom floor made of Drop Stitch material.

STAND UP PADDLE

There's nothing quite like the sensation of "walking on water!" Stand up paddling opens a world of water sport adventures with family and friends. The BEACH range is for everyone who wants to start learning watersports as easily as possible. BREEZE products are well-suited to this environment with high-performance, super-responsive, lightweight designs and technology to help you progress fast and embark on more ambitious adventures.

BEST-SELLER

11'6" E-BREEZE PERFORMER The E-volution of SUP

Who has ever experienced the need for extra propulsion when the headwind rises or when you feel tired while stand-up paddling? With the E-BREEZE PERFORMER, you will never feel so comfy on a SUP. It's the SUP without its inconveniences and with more possibilities.

The innovation? A motor fully integrated into the Performer's super stable hull. The E-BREEZE PERFORMER is the ideal board for endless flat water expeditions and small wave riding. With the remote control attached to the wrist or paddle, you can adjust your speed (3 levels).

Our unique 11'6" E-BREEZE PERFORMER will now come as a complete package including FP paddle & coil leash. The concept remains similar with a nice integration of both engine & battery into the board that provides an extra e-propulsion of 180W for 1-3 hours depending on the speed setting. Seeking smoother, more extended rides? Struggling against headwinds? Fear not, our remotely controlled E-power is here to offer you the finest assistance.

KEY FEATURES:

- ACE-TEC TECHNOLOGY
Strong and light
- MOTION CORE FULLY INTEGRATED DRIVE UNIT
Brushless motor & wireless Intelligent Assistance (up to 5km/hour - 180 W)
- LI-ION WATERPROOF BATTERY
1-3 hours of battery life (depending on level mode). Comes with charger and UK/EU adaptators
- REMOTE CONTROL WITH 3 SPEEDS
Attachment on the paddle or wrist, you keep your hands free to paddle
- WEB APPLICATION
Manage your engine power - Check your battery level
- FRONT ATTACHMENT POINTS, PLUS DECK BUNGIES
To safely carry equipment
- EVA FOAM DECK PAD
High comfort anti-slip
- ERGONOMIC CARRY HANDLE
Easy transportation
- MAXIMUM RIDER WEIGHT FOR OPTIMUM STABILITY:
240lbs / 110kg

SURF

Surfing connects us to the pure energy of Mother Nature like nothing else. The feeling of standing and gliding on water is what brings us back time and time again. Whether rigid or soft, shortboard or longboard, TAHE surfboards are designed to make surfing fun, easy, and to help you create magic moments on the water.

BEST-SELLER

METEOR Soft-rugged surfboard

Throw everything about what you know about foamy board. The brand-new METEOR is just FUNtastic. Versatile, maneuverable, and responsive, the METEOR is for all riders, from beginners to intermediates, who are looking to progress and have maximum fun.

This board has extra volume in the center, a squash tail, and lowered rails. Lively and made for the glide at full blast, it will become your go-to board for all conditions.

Thanks to our innovative SKIN-TEC hybrid technology, the METEOR is lightweight and super resistant. Our high density cellular foams are molded in France and generate no waste during their production.

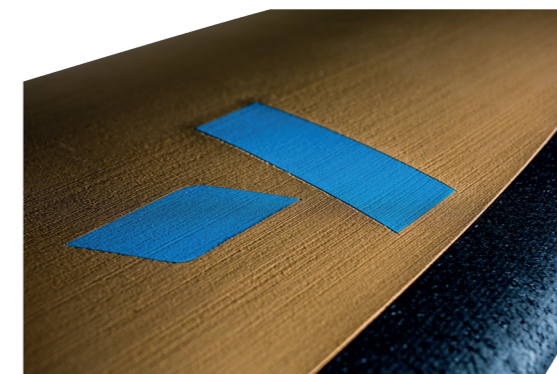

The icing on the cake? It is fully recyclable and is the first soft board made in Europe.

The brushed EVA deck pad offers stability and a strong grip. No more wax is needed. Put on your wetsuit, grab your board, and go surfing! Available in 3 sizes.

The METEOR range is still expanding. We're introducing the METEOR 8'4" / 90L, very suitable for schools and heavier/taller riders. METEOR boards are targeting beginners with a shape that facilitates take-off, as well as riders looking for a fun board, who will appreciate its versatility and smooth glide.

KEY FEATURES:

- SKIN-TEC TECHNOLOGY 100% RECYCLABLE
High-density cellular foam. Durable, light weight and water-resistant.
- DOUBLE-STRINGERS
Integral factory-finished wooden stringers inside the hybrid foam slab. Gives extra rigidity whilst retaining flex.
- HIGH-QUALITY BRUSHED EVA FOAM DECK-PAD
No more wax, maximum grip, 3mm thick.
- FCS I FIN BOXES WITH STELLAR FINS
Flexible fins manufactured in France, eco-designed, raw material derived from recycled fishing nets. They are fully recyclable.
- TEXTURED SURFACE
Unrivaled feel and finish.
- INTEGRAL CARRY HANDLE
Easy transportation
- LEASH PLUG
- MADE IN FRANCE

BEST-SELLER

COMET

The recyclable surfboard

Recyclable

Thanks to its Tough-Tec construction, the COMET board gives you unbeatable and unbreakable reliability and performance for learning and progressing your wave riding. Its polyethylene skin and EPS foam body are 100% recyclable and 100% Made In France.

The COMET is shaped by the knowledge of Jon Henderson. It's a reliable and forgiving ride in a wide range of conditions, fast and very manoeuvrable. This board has extra volume in the centre and lowered rails to give increased stability, optimum glide, and excellent attack in the waves.

Tough-Tec boards are 100% Made-In-France, generate zero waste during their production and are 100% recyclable at the end of their lives. They're ideal for riders in progression, and for any surfer concerned about minimising their environmental impact with no compromise on performance.

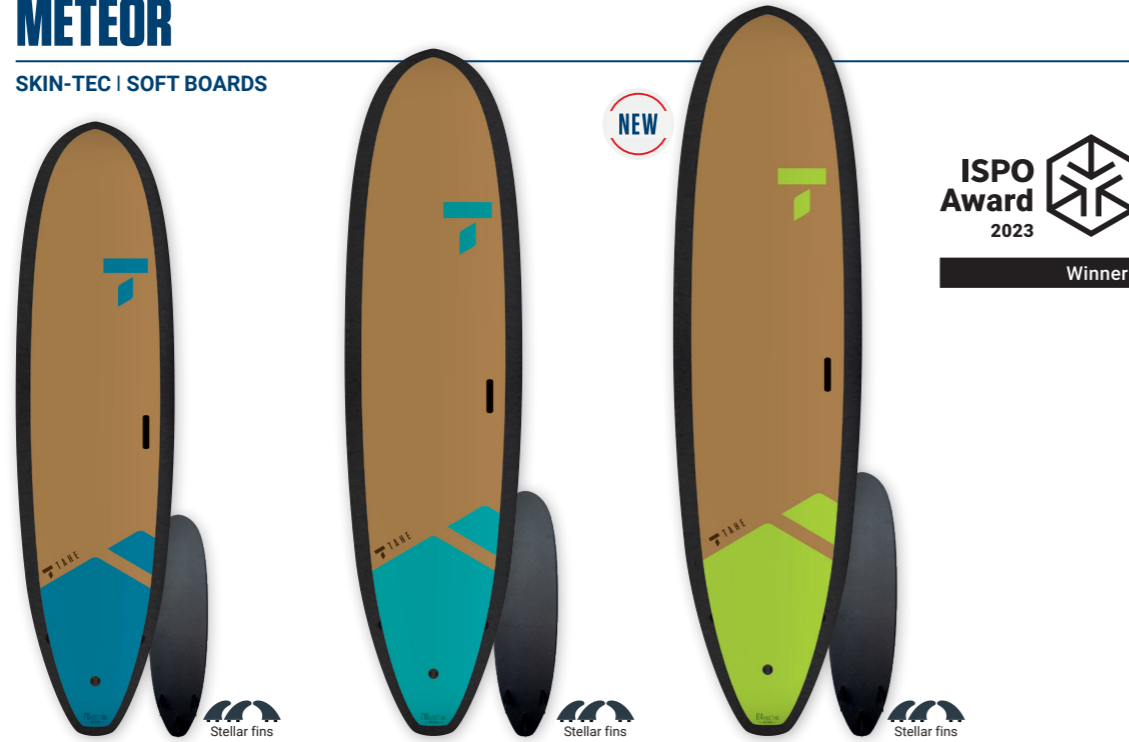

KEY FEATURES:

- SUPER-STRONG EXTERNAL TOUGH-TEC SKIN
Virtually unbreakable
- LIGHT-WEIGHT, WATER-RESISTANT EPS FOAM BODY
Zero water infiltration in the event of knocks, cuts or bumps
- 100% MADE IN FRANCE AND RECYCLABLE
High-performance and long-lasting boards
- 3X STELLAR FINS (fins supplied)
Made from recycled fishing nets and fully recyclable.
Compatible with the FCS fin boxes.
- PRODUCTION MOULDED FIN BOX AND LEASH PLUG
For maximum water-tightness and strength

STELLAR TRI FINS

Eco-designed, the STELLAR are the first fins produced in France, in a local distribution network, from recycled fishing nets. They are 100% recyclable. The STELLAR are reliable, high-performance fins. With a more prominent rake and a wider base, they are forgiving, stable, and have a good snap in the wave. These STELLAR fins are compatible with the FCS 1 and FCS 2 fin boxes (adapters not included). Fins supplied with the METEOR & COMET surfboards.

WING FOIL

Thrills guaranteed! With the right gear, wingfoiling is accessible and allows you to explore a new world in three dimensions.

The ALIZÉ wing is lightweight and intuitive, the AQUILON foil is specially designed to be very stable in the air, and the ARIA boards are the ultimate choice for successful water-starts. Soaring above the water has never been so accessible!

BEST-SELLER

ARIA 5'8" – 110L (AT)

The Made in France wing foil board

The ARIA 5'8" is one of the most exciting additions to our wing foil range. This wing foil board is manufactured in France, at our production site in Vannes. A first. This new shape is opening the doors for wing foilers who want a rigid board at an affordable price.

Featuring durable, lightweight ACE-TEC technology, this board is built to last. This is the result of our 40 years of experience in windsurfing.

The Aria 5'8" is very stable, even when off the foil, allowing easy paddling and smooth lift off. Its compact shape (full nose outline and straight tail rocker) ensures the stability of the board without sacrificing its performance. The two channels on the deck add rigidity to the board while making it easy to grab.

The rear foil placement and bottom chine provide easy lift-off and forgiveness during touchdowns. The double-slotted box allows for more secure mounting of the foil, and the high quality brushed EVA pad provides unmatched grip in turns. The narrower foot-strap placement is ideal for controlling the foil during powerful maneuver. It is the best wing foil board for progressing and discovering new soaring thrills. The best choice to get started and wingfoiling for many, many years!

KEY FEATURES:

- ACE-TEC (AT) TECHNOLOGY
For lightweight, durability
- FULL NOSE OUTLINE AND STRAIGHT TAIL ROCKER
Providing stability while paddling and touchdowns
- BOTTOM CHINE
For smooth lift-off and better glide
- REAR FOIL PLACEMENT AND VOLUME DISTRIBUTION
For easy launching
- NARROWER FOOT STRAP PLACEMENT
For wing foiling and more dynamic turning
- DOUBLE SLOTTED FIN BOX TRACKS FOR PLATE MOUNT SYSTEM
For secure mounting of foil
- HIGH-QUALITY BRUSHED EVA FOAM DECK-PAD
No more wax, maximum grip, 3mm thick.

ALIZÉ

WING

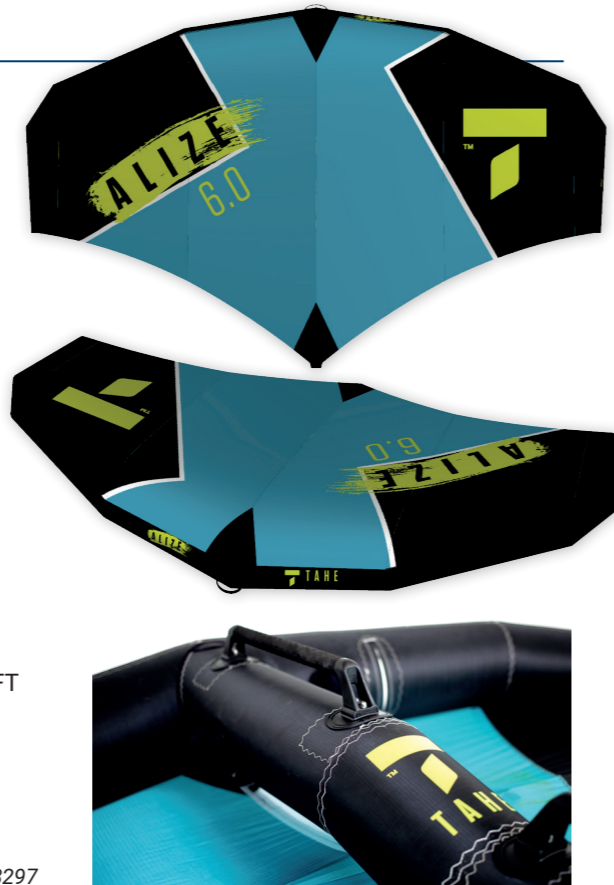

Just like the warm, steady winds that blow in the tropics, the ALIZÉ Wing is light and stable. Guaranteed take-off! Easy to control, its compact design allows you to enjoy your ride without touching the water. Its rigidity makes sailing simple and reduces risk of flapping. The ergonomic centre batten allows you to adjust power quickly and easily during your ride.

Two wide-tube extra large mini-booms enable you to position your hands precisely and make the ALIZÉ very simple to use and control. The ALIZÉ's amazing stability makes it well-adapted to all skill levels: beginners, schools and more advanced riders in progression.

Key Features

- COMPACT AND « RIGID » WING
Stable flight and easy relaunch
- DACRON TECHNOLOGY
Light weight and extended product life
- ERGONOMIC INFLATABLE CENTRAL BATTEN WITH SLIGHT UP-LIFT
Easy relaunch. Very efficient when « pumping » for power
- 2 WIDE-TUBE MINI-BOOMS WITH EVA FOAM GRIPS
Easy to control, excellent comfort and grip when fully powered-up
- 2 RUSH-AIR INFLATION/DEFLATION VALVES

AQUILON

FOIL

AQUILON Foils are the ideal platform for learning to "fly"! The simple set of two sizes are designed to help you learn in style and progress quickly. With ease of take-off and stability in flight you'll progress fast, dial in your style and be hungry for more after each session.

AQUILON foils have aluminium mast and fuselage for simplicity and durability, with carbon fibre front wing and stabiliser for optimum performance. All TAHE foils are 100% compatible with foils made by our sister brand, SIC Maui. This enables you to learn easily, and develop your skill level at your own speed, interchanging foil components as you progress.

Additional 1200 cm² front wing that gives users the option of upgrading their AQUILON foil as they progress in their skills.

Key Features

- LOW ASPECT RATIO FRONT WING
Guaranteed take-off even in light wind and fast progression
- CHOOSE THE FOIL SIZE ACCORDING TO THE RIDER'S WEIGHT
AQUILON 1500: > 80 kg +/- (176lbs) - AQUILON 2000: 80-100 kg + (176 to 220lbs)
- FRONT WING AND STAB WITH WINGLETS: Excellent control at speed
- MAST, FUSELAGE, CONNECTOR AND FIXING PLATE: Aluminium
- FRONT WING AND STABILISER: Carbon fibre
- TEF GEL INCLUDED: For extended product life
- STORAGE BAG FOR THE COMPLETE FOIL
Plus Individual protectors for wing and mast

TAHE 2024 | ENDLESS PLAY TIME

ARIA AIR 5'11" 130L - 6'2" 140L

WINGBOARD

The inflatable ARIA 5'11" and 6'2" AIR have a shape and design similar to the rigid board ARIA, with increased volume to give increased stability in flight and on the water. Conceived for easy riding and to give advanced performance for more experienced riders. Their generous volume means you can learn to wingfoil in total confidence. The carbon fibre mounting plate under the foot pad is ultra-rigid and helps guarantee performance similar to rigid boards. The board's Drop Stitch vertical seam construction with glued under-and-over deck, hull and rail reinforcements gives it excellent strength and rigidity. The advantages of inflatables: practicality, space gain when transporting and storing, safe landing when you fall off. The deck pad gives maximum ride comfort, also when you're kneeling.

Key Features

- HIGH PRESSURE DROP STITCH CONSTRUCTION
Stability on the water and in flight
- COMPACT LENGTH AND WIDE PROFILE
Easy waterstarts and increased forgiveness when touching/snagging the water. Never "sticks" to the water.
- REDUCED REAR ROCKER WITH HARD EDGE
Adapt easily to your riding style
- CLOSE-SET FOOT STRAP INSERTS
High performance of a rigid board with the advantages of an inflatable, powerful pumping
- ULTRA-RIGID CARBON PLATE
Precision-mounting of foil
- DOUBLE-RAIL
Premium quality materials for maximum ride comfort
- EVA DIAMOND-GROOVE FOOT PAD AND KICKTAIL
Easy transportation with the foil fitted
- INTEGRAL HULL-MOUNTED HANDLE
With 3 footstraps included

TAHE 2024 | ENDLESS PLAY TIME

WINDSURF

Windsurfing is the fastest, most exciting board sport on the water! Learn the basics on a TAHE BEACH board, enjoy the sensation of flying on a TECHNO 130 Foil board or get into racing on the TECHNO 293 One Design. Regardless of your skill level or type of board, it's all about endless playtime on the water.

NEW THIS SEASON

BEACH 260D

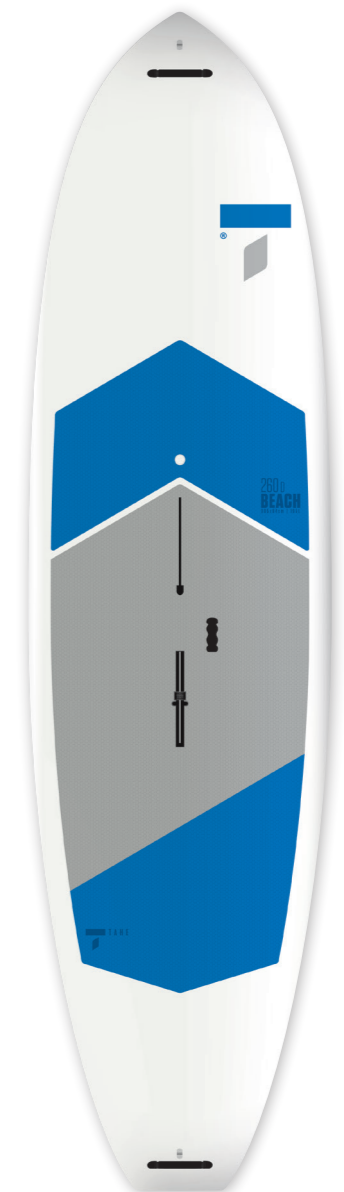

Durable & Stable for Schools

BEACH Windsurf boards are designed for entry-level windsurfers and windsurfing schools looking for durable, easy-to-access, modern boards. The BEACH 260D is targeted at windsurfing schools looking for a more traditional outline with parallel rails and/or a high-volume board for larger riders. It is built using our BEACH CROSS 11'0 board as a base. It is fitted with a retractable daggerboard with carry handles at the front and rear, and an ergo-grip carry handle.

The deck is covered with a durable, comfortable, non-slip EVA foam pad. Thanks to its keeled nose, the BEACH 260D glides well, even in light winds, and is very stable. Featuring our ultra-durable Tough-Tec construction, it's particularly apt for both sailing schools and windsurf-enthusiast families looking for one board that the entire family can try windsurfing on.

KEY FEATURES:

- LONG AND WIDE BOARD
Stable and fast in lightwind
- KEELED-NOSE
Enhanced Tracking & Glide
- FRONT AND REAR CARRY HANDLE AND ERGO-GRIP CARRY HANDLE
Ease of Transport and Less Fatigue
- LARGE DECK PAD
Non slip and comfortable
- RETRACTABLE DAGGERBOARD
Upwind ability
- TOUGH-TEC CONSTRUCTION
Ultimate durability. Nearly Ding-Proof Polyethylene for worry-free use

KAYAK

Kayaking is easy to learn and the perfect way to explore beyond the shore and stay fit. Whether you paddle on the sea, in a lake or down the river, TAHE can take you where you want to go with a wide range of rigid and inflatable models to suit all levels and styles.

BEST-SELLER

FULL HP BREEZE SERIES

BREEZE FULL HP kayaks feature three high pressure chambers built with rugged Drop Stitch technology, pre-formed nose and tail sections. It creates a very rigid, high performance kayak. Available in single, tandem and three person sizes.

Top-of-the-range inflatable kayak with superior level of glide, good rigidity, plenty of space inside the cockpit for outings and exploration on all kinds of water, flat and rough.

Try the PRO version for long distance paddling. The BREEZE FULL HP2 PRO comes with removable rudder and its control system by pedals that provide an excellent glide to take you on adventures far from the beaten track.

KEY FEATURES:

- PANELLED, DROP STITCH HIGH-PRESSURE STRUCTURE (same as our SUP range)
Strength, stiffness and light weight
- MANUFACTURED WITH A FUSION OF HIGH PERFORMANCE CLOTHS AND GLUES
Powerful adhesion, durability
- VERSATILE DESIGN CONCEPT
Great for all kinds of kayaking styles (and even SUP!)
- TOTALLY DUAL PERFORMANCE
Identical solo and duo paddle comfort
- HUGE CAPACITY FOR CARRYING EQUIPMENT IN THE COCKPIT
Plus extra, elasticated carry nets
- FAST, EASY INFLATION IN LESS THAN 8 MINUTES
Thanks to its high pressure pump
- H3 HIGH-PRESSURE VALVES
Reliable, totally air-tight, replaceable
- AUTO-EMPTY BUNG
Fast, easy emptying after use
- PROFILED DECK (with deep V moulded tip sections front and rear) AND STEEP-ANGLED RUN-OFFS
Excellent glide, high performance, lateral stability, directional control
- FRONT DEFLECTOR TO MINIMISE WATER ENTRY IN HEAVY CHOP
Offers convenience and value

SPORTYAK

The SPORTYAK 245 and 213 are stable, ultra-durable tenders for the harbour, fishing and fun at the beach. A 'catamaran' style hull gives them stability beyond the typical dinghy while twin sheet thermoformed construction creates a rugged and sturdy hull. 150,000 satisfied customers can't be wrong, SPORTYAK is the ultimate benchmark for small boats.

BEST-SELLER

SPORTYAK 245

SAFETY FIRST

Rowing, sculling or motoring, in port or at anchor, the Sportyak 245 is an ideal way to get to your boat. On vacation it becomes a perfect rowboat that the whole family to enjoy and is ideal for kids to experience the joy of 'messing about in boats'. The 245 is lightweight for its size and features a super stable hull design for added comfort and ease of use. The innovative wheel transport systems makes transport a breeze. Quality accessories include an adjustable oar bench, two oarlock location options, multiple carrying handles, a self-draining plug to be able to leave your tender at anchor and deck lines for added safety.

The SPORTYAK 245 is a benchmark in the dinghy/tender market and 100% recyclable at the end of its useful life.

KEY FEATURES:

- CATAMARAN HULL
For excellent stability
- DRAIN PLUG ABOVE THE WATERLINE
Allows emptying at anchor
- WHEEL TRANSPORT SYSTEM
For easy transport on all terrains
- 2 OARLOCK POSITIONS
Adapts to the number of passengers
- HOLLOW TWIN SHEET TECHNOLOGY
Lightweight for its size
- REINFORCED TRANSOM
Accepts small motor (under 2HP)
- MADE IN FRANCE
