

Collection Introduction 2024

Dear All,

We're delighted to present the new TAHE 2024 collection!

During this period of dynamic versatility, the TAHE brand draws stability from its rich BIC Sport legacy, presenting our new 2024 collection focused on reliability and quality. Each product family benefits from new or updated features.

The B2B market is the key focus for our new product lineup, which includes E-BREEZE Electric SUP, METEOR 8'4, the BEACH 260D Windsurf Daggerboard, 12' Rigid CROSS-YAK, and rental-focused kayaks. In alignment with our core values of accessibility, durability, sharing, and being proudly Made in France, these products further expand our public offering.

COMPLETE PACKAGE

11'6 E-BREEZE PERFORMER

SUP 2024

After a successful launch in 2023 and listening to feedback from the market, our unique 11'6" E-BREEZE PERFORMER will now come as a complete package including FP paddle & coil leash. The concept remains similar with a nice integration of both engine & battery into the board that provides an extra e-propulsion of 180W for 1-3 hours depending on the speed setting. Seeking smoother, more extended rides? Struggling against headwinds? Fear not, our remotely controlled E-power is here to offer you the finest assistance.

7'10 METEOR 8'4 METEOR

SURF 2024

The METEOR range is still expanding. The 7'10 / 75L will be launched in September 2023 and we're introducing an even larger size in 2024: The METEOR 8'4 / 90L is very suitable for schools and heavier/taller riders. METEOR boards are targeting beginners with a shape that facilitates take-off, as well as riders looking for a fun board, who will appreciate its versatility and smooth glide.

WINDSURF 2024

Introducing the latest addition to our BEACH Range with Tough-Tec construction – the BEACH 260D, a new 3.35m windsurf board equipped with a daggerboard. Designed for windsurf schools, looking for a more traditional outline with parallel rails and/or a large volume for larger learners. The board design takes inspiration from the 11'0 CROSS Board, enhanced by the inclusion of a daggerboard. The board boasts exceptional stability, offering smooth gliding even in gentle winds, making it an ideal choice for both windsurfing learners and schools.

BEACH 260D

WING 2024

Following the successful launch of the ARIA Ace-Tec board in 2023, we are expanding the AQUILON foil range with an additional 1200 cm² front wing. This gives users the option of upgrading their AQUILON foil as they progress in their skills. The AQUILON foil range is dedicated to handling easy flying and great maneuverability. It's worth mentioning that TAHE and SIC boast a similar part connection design, which offers the exciting opportunity to amplify performance by seamlessly integrating SIC Slash parts into the equipment.

Front wing 1200cm²

SUP-YAK 2024

12'0 BEACH CROSS-YAK

The SUP-YAK family is now welcoming the Rigid CROSS-YAK 12' in addition to both inflatable & 11' Rigid CROSS-YAK. This versatile hybrid board serves as an excellent rental and club facility asset, accommodating two riders for stand-up paddling or kayaking. Crafted with are infamously resilient Tough-Tec material, this board comes equipped with two seats, footrests, paddles, and a board leash.

KAYAK 2024

TRINIDAD

KALAO

SCAPA Fit

TAHE is extending its kayak range with dedicated Rental kayaks based on the 2 seats TRINIDAD & 3 seats KALAO. Both kayaks were designed to fulfill all the requirements for such usage, including features like easy carry handles, stack-ability, stable design, and ample dry box capacity. This brand new range of Rental kayak is made out of heavy-duty thick PE sheets that make them highly abrasion-proof. As a downside they are also heavier.

The SCAPA Fit, TRINIDAD and KALAO have been redesigned with a colorful deck to clearly identify each kayak's program: orange for recreational use, blue for a mixed use (recreational/touring) and green-anise for touring use.

With the introduction of new products and upgrades across almost all our ranges, we are confident that our TAHE 2024 collection will ignite fresh excitement and momentum.

Our dedication lies in enabling you to share our passion for watersports with a wide audience, regardless of the chosen activity.

TAHE Team
